CHICKERING & SONS,

PIANOFORTES.

THE subscribers take pleasure in informing the public that they have been appointed **Sole Agents for these Celebrated Instruments for the State of Rhode Island;** and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in the city.

The subscribers have been considers of the entire ordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the **CHICKERING PIANOS** have been so frequently and minutely retailed by the Press that we do not consider it necessary in the Card to enumerate further upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

Lillies of the Valley.

BY MARY B. C. SLADE.

The lillies were fair, by the garden-wall;
They blossomed for beauty;—and was that all?

Etta checked her steps in the path; said she,
"I will carry a few for my friend to see."
And she only stayed at my door to say,
"Here are lillies that blossom for you to-day."

I took the gift with a glad delight,—
No sweet, so perfect, so pure and white.
How modestly drooping their eyelids fell,
Like a bride's, when she waits for the marriage bell!
How fair they were, in the chalice tall!
They blossomed for beauty;—and was that all?

Our Annie came in with a tale of woe,
From a wretched home in the lanes below.
Little Mary, the pride of a poor man's breast,
Had folded her hands in eternal rest.
Her robes were coarse, and the room was bare,
And nothing of beauty or light was there.

Then I took from the vase my lilies dear,
And gave them the dew of a silent tear;
And parting the fingers, pale and thin,
Annie laid the lilies their clasp within.
And the father and mother will think of her so,
Whenever the flowers in the spring-time grow.

The lillies were fair by the garden-wall;
They blossomed for beauty. That was not all;
For the Father his rain and his sunshine gave,
And they opened for Mary to wear in her grave,
And Etta did more of His will than she knew,
When she said "Here are lillies that blossom for you."

Spare the Birds.

Farmers and gardeners rarely appreciate the value of birds. Hence the frequent "shooting matches" to kill the greatest number of birds—a kind of emulation which betrays a frightful ignorance, or I am almost tempted to say a very bad heart indeed, in all respects without excuse. Birds, almost without exception, are the farmer's best friends. If you would see your fruit trees destroyed by borers and caterpillars, your cabbages ravaged by cut worms, your grain fields at the mercy of army-worms, not only for one season, but for successive years, then kill your birds. The larvæ of injurious insects, destroyed by them would, but for this destruction, blight your fields, lay waste your orchards, the expenses of personal support. Who thinks as he ought of the little wood-pecker feeding upon the larvæ of those injurious beetles which make their habitation in the trunks and limbs of trees, or of the legion of insects destroyed by the swarms of chimney swallows? The plaintive wail of the whip-poor-will, which the superstitions interpret as a harbinger of death, has caused the death of millions of these little innocent friends of the farmer. The brown thrushes, blackbirds and robbins destroy more cut-worms twice over than are left to damage fruit and sward. So also of the cedar bird, the wren and the mocking bird. If I address intelligent fathers, mothers or kind-hearted boys, let me entreat them to spare, and teach all children to spare the little birds and their eggs, especially if they delight in green grass and trees and in beautiful shrubs and flowers.—It would seem as if their almost divine melodies ought to secure birds from harm, but, if not, then let this utilitarian age plead in their behalf for the good they do mankind.

It is curious to contemplate the manner in which Providence has ordered the wonderful arrangement and adaptements of birds. One tribe feeds almost entirely upon injurious mammals, another destroys insects, feeding upon vegetation and investing the grass; another destroys larvæ and full grown insects found on the barks and limbs of trees; another, those adhering to the foliage, while others—some by day and some by night,—capture flying insects near the earth, and what all others have left, the swallows, from dawn to dark, fall upon and devour. The whole circle of the air and sky belongs to the birds. It is their home, and as if their delicious music was not enough to tune their own hearts to a sabbath day's melody and praise, they gather for us in our barns and become friends, husbandmen, providers, and all without money and without price; and if these little birds at the hands of a kind providence, thus know how to give good gifts to mankind, what ought to be our adoration to the Giver of all Good, and the measure of our mercy to those who contribute so much to our pleasure and profit? Owing to man's folly, there is reason to fear that insectivorous birds are dim nishing from year to year, and destructive reptiles and insect life increasing in a corresponding degree, thus more and more destroying the perfect harmonies of the universe. It is our duty, therefore, more and more to save what we can; and in this way your State Society, by example and practice, may do a great good to the country at large, and especially to its agricultural interests.—S. E. Todd in *N. Y. Times.*

THE JEALOUSY OF GIRLS.—Girls are awfully jealous of each other. I should call this the girl's distinctive fault. See them when they are introduced, or when they first meet at a ball or croquet party; see how coldly critical they look at each other, how insolently their eyes rove over every portion of their rival's dress; read in their faces the outspoken scorn as the result of their scrutiny. "You think you have done it very well, but you have made a fright of yourself, and I am much better than you!" watch their disdain of the more admired among them; and how excessively naughty for attracting they think Ada or Amy is about whom the young men cluster. How bold she is!—how affected she is!—and, oh! how ugly she is! Sometimes, if they are deep, they will overpraise her enthusiastically; but the ruse is generally too transparent to deceive any one, and simply counts what it is—a clever feint that doesn't answer. It is quite a study to watch the way in which girls shake hands together, or take hands in the dances. The limp, cool, impertinent way in which they just touch palms, then let their arms fall as paralyzed, tell a volume to those able to read the lettering.—*Every Saturday.*

NEWPORT DAILY NEWS,

SATURDAY, May 8, 1869.

Rhode Island Politics.

Outside of our little state, Rhode Island politics have always been a mystery past finding out. Even the most intelligent and observing people could never comprehend them. The case is not much better inside the state, for things are so far managed by a few rich men, and so entirely in their interest, that the people really have little to do with the concerns that most nearly effect them. We have often called attention to this condition of things, and have expressed our purpose to adhere to none of the clans into which the people are divided. We neither belong to the Spragues nor the other "great family" just now attracting so much attention. The present excitement has nothing to do with principles nor matters of government of any kind, but is simply a fight for personal supremacy. The Spragues want to rule and intend to do so in the future as they have generally done in the past. But as we see it, they are no more liable to this charge than are some others who are now disputing the supremacy with them. The whole affair is disgraceful in the extreme—as much so to the one side as to the other, and we advise the people to stand aloof and let those who are concerned have the battle all among themselves. What difference does it make to the common people which of the chiefs shall prevail in the coming contest. Instead of ranging ourselves on the one side or the other it will be far more to the credit of the voters of Rhode Island to rise up and condemn the whole thing and look out candidates and leaders that belong to neither side in this personal strife for power. Let us be men and not machines worked by those who have purposes to serve, and who because of their great wealth feel that they are the State. Let us not be serfs, though it cannot be denied that we are treated as such and sometimes spoken of in that light by those who lord it over the community. We say this in the interest of none of the factions now contending for the mastery.—We have always felt humiliated when we have reflected on the position assigned the people in political affairs. A few men meet in private parlors, arrange their plans, send out their agents and the work is done. It is only when the drawing room magnates fail to agree, that there is even the show of controversy. And then we are simply allowed to choose between them on such an issue as they have been pleased to make up. This is just about the state of the case at the present time—when there is so great a strife, only this and nothing more.

The Pacific Railroad.

The last rail in the connecting link of our transcontinental highway has been laid. To-day the Central and the Union Pacific form by Government direction "one continuous road," from Omaha to Sacramento. With marvelous and magic-like rapidity have the two powerful companies brought section after section of their roads to completion, until to day they reach the goal for which both have so vigorously contended. Within the brief period of three years and a fraction the Union Pacific Railroad Company have crossed the prairies of Nebraska, scaled the Rocky Mountains, pushed over the great mountain plateau, passed the rugged range of the Wasatch, pierced and tunneled the cliffs they could not climb, wormed their way through and across the most terrific Canons, passed northward of the Great Salt Lake, until they have met the Central Pacific at their coming, nearly eleven hundred miles west of their initial point at Omaha.

Such achievements in so short a time may justly excite the wonder and the admiration of the world. But the building of so long a stretch of railroad through a country abounding in the most formidable obstacles is not the only point that challenges attention. The Company's field of operation was an insolated desert. Rich it may be in alluvial soil, rich in the elements of mineral wealth which Nature had locked up in her "mountain chests," it is for the purposes of such a work, practically a desert. It was totally devoid of settlement, and destitute of all requisites for supporting population. But more than this, the Company's army of road-builders was always operating at an average distance of two thousand miles from their base of supplies. All the requisite materials for the work, save timber, were procured in the Atlantic States, transported by any and every available means to Omaha, and thence over the road as it progressed, to the point of employment. A hundred and ten thousand tons of iron rails, a million fish plates, two million bolts, and fifteen million spikes, are among the items thus brought from the East and consumed upon the road. The great engines that move the Company's works at Omaha, together with the varied and vast amounts of machinery, implements and tools used in stocking and fitting up their manufactories, were also brought from the East, and wagoned over the country a hundred and fifty miles to Omaha.

Some three and a half million cross-ties, and timber in unnumbered millions of feet, have been consumed in the construction of the road, its culverts and bridges. Much of this material was found at Chicago, and its transportation therefore was comparatively inexpensive, after railroad communication with that city was established. All the materials, except brick, required for building Founderies, Machine shops, Construction Shops of all grades, Station Houses, Round-Houses, Store-Houses, Telegraph line and Offices, Water Stations, Supply Stations, and the thousand minor things that enter into the outfit of so great a work, being likewise obtained at a distance, add largely to the cumulative account of transportation. Subsistence and Stores for an army of five to twenty thousand skilled and unskilled workmen, and forage for six to eight thousand teams of mules and horses, are items quite too large to be left out of account. A large amount of the rolling stock on the road, including locomotives, was at first and is yet procured at the East, because the Company's works have not the capacity to build as fast as it is required.

An Ancient Document.

We have before us a copy of "The American Museum" for July, 1788. Like all publications of that date it is something of a literary curiosity, and some of the articles in it are worthy of notice. We republish the following, which appears as a Protest, &c.

Political Squibs.

Protest of the minority of the general assembly of Pennsylvania, who objected to calling a convention for the purpose of ratifying the federal constitution.

Discontent,

1st. BECAUSE, by the diminution of the power of the state of Pennsylvania, we shall have fewer offices and smaller salaries to bestow upon our friends.

2d. Because, like the declaration of Independence, the measure, if a right one, is premature.

3d. Because the new federal constitution puts an end to all future emissions of paper money, and to tender laws, to both of which many of us owe our fortunes, and all of us our prospects of extrication from debt and exemption from jail, or the benefit of the bankrupt law.

4th. Because, by the new constitution of the United States, we shall be compelled to pay our taxes—whereas we now pay nothing towards the support of government, and yet are handsomely supported out of the state treasury.

5th. Because the new constitution, before it was sent on to congress, was not submitted to the consideration of the antifederal junto in Philadelphia, to each individual whereof, America is under greater obligations than to General Washington.

6th. Because, by the sixth section of the first article of the constitution of the united states, it is made impossible for persons in power to create offices for themselves, or to appoint themselves to offices. This we conceive to be an evident departure from the free and excellent constitution of Pennsylvania, by which it is lawful for assemblymen and counsellors, to appoint themselves, or their sons to all, or to any of the offices of the state.

7th. Because a disaffected member of the federal convention, from Virginia, in a closet conversation with ——, disapproved of the federal government; and we hold it to be our duty rather to follow his advice, than the inclinations of our constituents.

8th. Because from the power claimed by the new constitution, congress will have a right to suppress all "domestic insurrections" in particular states, by which means we shall be deprived of the only means of opposing the laws of this state, especially laws for collecting taxes.

Philadelphia, September 20, 1787.

About Home.

Pentecost.—Mrs. S. L. Little, of this city, has just published a poem for Whitsuntide with the above title. It is issued in muslin, and also in paper covers, and may be found at all of the bookstores. We take great pleasure in calling attention to the work as one creditable both to the heart and genius of the writer. As a poem it is full of spirit and will be read with interest not only by the friends of the author, but by all who are lovers of true poetry. The profits arising from the sale are devoted to a public charity in this city, to which Mrs. Little is devoting her energies. We shall make some liberal extracts from the pages of the work in a future number, and in the mean time advise all our readers to purchase the book, not only because it is a home production and put forth in aid of a noble charity, but because it has in itself intrinsic merit of a high order.

The book was printed by Messrs. Davis & Pitman, and all who examine it will be forced to admit that book work can be done as neatly in Newport as in the larger cities.

Providence.

At the regular republican convention held last evening, Hon. Geo. L. Clarke was nominated for Mayor, having 21 votes to 8 for Charles E. Carpenter. The friends of Mayor Doyle withdrew before the voting commenced and held another convention where he was put in nomination for the same office. The other candidates are the same on both tickets. Now comes the tug of war. It is said that both sides have arguments in their pockets on which they chiefly rely for success.

The Men Assailed by Governor Sprague.—It should be remembered that to the family of Brown and Ives the people of Rhode Island principally owe the existence and prosperity of Brown University, the Providence Athenæum, the Quaker College, the Butler Hospital, and the Rhode Island Hospital. To this last institution these families and their immediate connections have given upwards of $175,000. To the Quaker College, Obediah Brown gave 10 acres of land, and his son gave nearly all his fortune. The Butler Asylum has been helped by them nearly $50,000, and Brown University has received larger sums. These men are not likely to be dangerously hurt by the attacks of Hon. Wm. Sprague, where they are so well known and so generously appreciated.

A remarkable runaway accident occurred in Ottaway, Ill., a few days ago. A span of horses became frightened, ran furiously down one of the principal streets and plunged into a jewelry store, ran to the rear of the room, and then turned and attempted to get behind the counter, between the show cases. The jewellers caught them, and in a moment they quieted and were led out.

A young man who has been employed in the blacksmith shop of the Troy and Lansingburgh Railway Company, Monday received a letter from Ireland informing him that by the death of an uncle he comes into the possession of about $15,000.

A New York paper tells of a cat that every morning wipes his paws upon the hall mat before entering his mistresses bedroom. If his feet leave a mark on the white coverlet of the bed, he is told of the fact, and again resorts to the mat, and then if not satisfied that his paws are clean, he dries them by the stove.

The Bloomington (Ill.) City Council have declared velocipeding on the streets a nuisance, and passed an ordinance forbidding it.

COLTON, THE MISSING ADAMS EXPRESS AGENT.

SPRINGFIELD, Mass., May 7.

A gentleman who has just returned to this city from Europe, reports that he saw Edwin R. Colton, the missing Adams Express agent of this city, in London, on the 20th and 21st of April. He had several hours conversation with Colton, and learned from him his adventures since leaving New York in December, 1867. Colton sailed from New York for England the day after his disappearance, and has been at sea most of the time since. The gentleman who makes this statement is an old acquaintance of Colton's and there is no mistake as to his identity.

Woonsocket is to have a "market day," The first will be held on the 15th instant, near Elliot's Hotel. It thus becomes a mutual benefit to both seller and purchaser by the saving of time.

A New Albany (Ind.) paper tells the following: "A family living in the neighborhood of Millersville, Marion County, has a male and female head, and two full sets of children. The other morning the old man, leading in family prayer, requested the Lord to take special care of his children, but failed to put in a good word for those of his wife. This led to words between them, which ended in the old lady picking up a shovel and hitting *pater familias* a sounding whack over the head, which laid open his scalp about four inches. Since that time there is no discrimination in favor of his own children in family prayer.

W. H. Harriman left Adams, Iowa, in 1859, for the gold regions of the Rocky Mountains. In 1863 he wrote home that he should start back with a certain train, since which time nothing has been heard of him, and it was ascertained that the train was captured by the Indians. Of course it was concluded that he was dead, and his estate went into administration. On Wednesday, of last week, he turned up at his old home, fresh from the White Pine. He found his wife still bearing his name.

United We Stand.—George Francis Train and Hon. Wm. Sprague spoke at a temperance meeting in New York, Thursday evening.

What is a Tonic?

Bear this in mind,—that although a tonic is, to a certain extent, a stimulant,—*a stimulant, unqualified by any medicinal substance, is not a tonic, but a* DEBILITANT. *In* HOSTETTER'S STOMACH BITTERS there is a stimulating element of the purest grade manufactured in this or any other country.—Every fiery and corrosive oil or acid which contaminates the ordinary liquors of commerce, is expelled from the RYE SPIRIT which forms the alcoholic basis of the BITTERS, by careful and repeated rectification. The juices of the valuable roots, barks and herbs, infused into this wholesome product of the finest grain, still further modify its nature; so that it becomes, in fact, a simple diffusive agent, minus all the heady and brain exciting properties which belong, more or less, to all liquors in a raw state.—It is merely the safe and harmless vehicle which renders the medicinal virtues of the preparation effective,—increasing their active power, and diffusing them through the system. Hence the pleasant and gentle glow which is experienced after taking a dose of the BITTERS. Instead of creating headache, as unmedicated stimulants are apt to do, this salubrious tonic is the best known remedy for that complaint. It calms and soothes cerebral excitement, strengthens the nerves, promotes the secretion of the gastric juice, invigorates the bowels, determines the fluids to the surface, improves the appetite, increases the animal vigor, regulates organic action, and, from its mild yet effective alterative qualities, is the very best preparation that can be administered to the weaker sex in the peculiar difficulties to which their organization subjects them.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists. feb1—ly sn

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,

DYSPEPSIA,

Nervous Debility,

JAUNDICE,

Diseases of the Kidneys,

ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with pure Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY,

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.

CAUTION.

Hoofland's German Remedies are counterfeited. The genuine have the signature of **C. M. Jackson** *on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.*

Price of the Bitters, $1 00 per bottle; Or, a half dozen for $5 00.
Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggists to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

TWO TABLE-SPOONFULS of the Extract of Sarsaparilla added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoctions as usually made.

AN INTERESTING LETTER is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla in certain affections, by Benjamin Travers, F. R. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states *that no remedy is equal to the Extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic with this invaluable attribute, that it is applicable to a state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious.*

An Ordinance in relation to the Fire Department:

It is ordained by the City Council of the City of Newport, as follows:

Section 1. There shall be a Convention of Firemen, annually, on the third Monday in May, at the Chamber of the Common Council, in the City Hall, to be composed of three delegates from each Fire Engine Company in the city; and if a majority of said Companies are represented in said Convention, by delegates duly elected by said Companies at meetings regularly warned for that purpose, said Convention may nominate a candidate for Chief Engineer and five candidates for Assistant Engineers, to be reported by said Convention to the City Council, at its first meeting for election of officers, in June; and the City Council may confirm or reject said nominations as to them shall seem proper. Should no such Convention be held as herein provided or should the City Council reject the nominations of such Convention as aforesaid, then the said City Council at said meeting in June shall proceed and elect such said Chief Engineer and Assistant Engineers, the same as if said Convention had not been provided for.

FRANKLIN MUTUAL FIRE INSURANCE CO.

WOOD'S BUILDING, No. 12 South Main, Cor. College Street, Providence.

INSURES FIRST-CLASS DWELLINGS AND CONTENTS ONLY.

—o—

AMOUNT AT RISK, $4,500,000.

—o—

The object of a Mutual Company is to furnish Insurance to its policy holders at the actual cost, and the main thing to be considered is, what conditions are most favorable to make the actual cost as near nominal as possible. This Company will insure nothing but Dwellings and Household Furniture, which experience has shown to be the SAFEST OF ALL INSURANCE RISKS, thus putting the liability of losses at the LOWEST POSSIBLE STANDARD. The premium charged is sufficient to cover all probable losses and expenses during the term for which the policies are issued, thus avoiding the necessity of assessments, which are always distasteful and expensive. The insured receive all the profits,—every dollar, after deducting the necessary expenses, being invested for their benefit, and returned to them at the expiration of their policies, thus offering one of the safest and cheapest systems of insurance.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

Is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

STICKNEY'S CIRCUS,

FROM NEW YORK,

IS COMING.

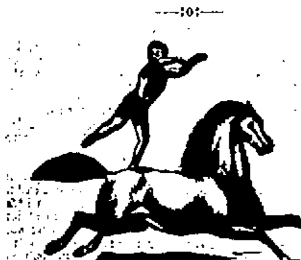

—:o:—

Lot corner Spring & Perry-Sts,

—:o:—

MONDAY, MAY 10.

—:o:—

A Railroad Circus.—No Jaded and Worn-Out Horses.

—:o:—

Opposition Invited—Competition Defied.

—:o:—

Organized for the year 1869 in keeping with the spirit of the times and age of progression.

Despising the new fang'ed humbuggery of the age, the manager does not announce a combination of six or four circuses in one, or impose upon the public any hybrid "Circus and Managerie," which are invariably found to contain a weak apology on either; nor does he deem it expedient to resort to a *Dazzling Street Parade*—he simply proposes to exhibit a fully developed and intelligible circus performance, but superior to any presented by the would-be pretending exhibitions now in vogue, who simply "keep the promise to the ear and break it on to the hope." In which he is able to announce the following

Well Known Celebrities.

Mad. Louise Tournaire,

The brilliant and fascinating premiere lady rider *Dame de Manage* and delineator of the high school of art.

Madame Ida,

The Classic Grace and Rare Accomplishments of this lady have gained for her the appellation of the Hippone of the Circle.

La Petite Marie,

The Child Rider, only eight years old, whose wonderful and difficult acts on the back of her Fiery Steed are astonishing to all who witness it.

S. P. Stickney,

The Veteran Pioneer of circus amusements, the Skillful Director, this gentleman imparts a brilliancy to the general performance.

Sam. Stickney,

The Favorite Clown and Shakesperian Jester.

Sam. Melville,

The Australian Clown. First appearance in this country.

Watson Brothers, three in number,

Theodore Tournaire,

William Naylor,

Delevanti Brothers,

Mons. St. Clair,

Sig. Terdolli,

William Penny,

L. Kline,

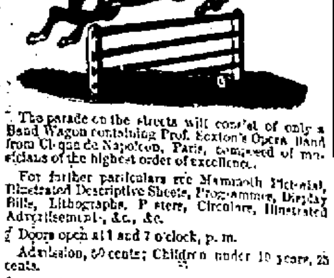

Theodore Robertson.

The Celebrated Trick Horse,

JAMES ROBERSON,

Will be introduced by Madame Louise Tournaire.

Mr. Stickney having banished the antique style and reached perfection in this immense organization, he will offer no stale and exhausted acts, but new features and fresh attractions never before introduced to the public, will surprise and delight the eye. The magnificent scene in the arena will be enriched and beautified by gorgeous paraphernalia and superb music.

The parade on the streets will consist of only a Band Wagon containing Prof. Sexton's Opera Band from Cirque de Napoleon, Paris, composed of musicians of the highest order of excellence.

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument*. Stronger endorsement we could not give.—*Home Journal.*

TSING TEA—Black Dragon Chop!

Natural leaf, perfectly pure (Tsing signifies pure).

Prepared without any coloring or foreign substance.

Cured on Porcelain (not copper), over a slow fire.

Delightful flavor, exceedingly powerful and strong.

Combines all the healthy virtues of the Tea plant.

Mandarins and higher class of natives use no other.

This celebrated Tea was first introduced here by the ORIENTAL TEA COMPANY, in May, 1868, when the limited quantity imported was rapidly sold, at the high price of $1.80 a pound. It met with such unqualified approval, and the demand for it from all sections was so great, that the Company at once made arrangements to procure a larger supply, upon more favorable terms, for the future; and they have just received the first invoice for this year, which will be sold at the low price of $1.10 a pound, at which (but little over half what it cost one year ago), it is the cheapest Tea known; and the Company feel that they cannot too highly recommend it to all who drink Tea, as it possesses the flavor and strength, and the soothing, invigorating properties of both Black and Green, without any injurious quality; being chemically pure and free from coloring matter or any foreign mixture, it will suit the taste and please all who love Tea.

This tea is put up neatly in pound parcels, 36 pounds in a chest, with the price, $1.10, printed on each package. The wholesale price by the chest is $1.00 a pound, and orders from Traders, Hotel-Keepers, Peddlers, Clubs, or Families, for chests of 36 pounds or more, will be filled at the *wholesale* price. Parties living in towns where we have agents can always get this Tea from them.

Like all other goods sold by the Oriental Tea Company, this Tea is warranted to give entire satisfaction; and parties ordering, can do so with the full assurance that if the whole or any part fails to suit, it may be returned at our expense, and we will refund the money.

SPECIAL NOTICE.—As a matter of convenience to the public we are arranging with Apothecaries and other Merchants, all over the country, to act as Agents for selling our Teas and Coffees in their locality, at our warehouse prices. *Our profits are small, but we give over four-fifths of them to Agents as commission.* We want an Agent in every town in the Union, and will send full particulars, terms, price-lists, &c., upon application by mail from Traders desiring it. Important Certificate.

Having been afflicted with chronic disease of the digestive organs, (described by physicians as enlargement of the liver and inflammation of the stomach,) for more than ten years, and suffered what words can never describe, without relief from the most celebrated medical skill that could be consulted, I was induced by the physician who last attended me to try **Dodd's Nervine and Invigorator.** He had witnessed its effects, he said, in his own practice, and could recommend it in the highest terms. I had almost lost faith in everything; but I followed his advice, procured the medicine.—The effect inspired me with hope. I continued its use, and still improved; following it up, I grew stronger and stronger, and suffered less and less from my troubles. This for some months—until I was relieved and needed it no longer. Dodd's Nervine restored me to complete and sound health: and no language is able to express the gratitude I feel at being well once more. I am thoroughly cured of the horrible suffering that had made ten years of my life most wretched. No one can conceive my joy who has not experienced a like recovery. L. B. LIBBY, St. Paul, Minn.
